OBJECTIVE

UI/UX Designer and Frontend Developer specializing in Laravel (PHP) and user interface/user experience design. Experienced in building secure, optimized, and scalable systems with responsive and visually engaging designs. Passionate about integrating AI-driven solutions and ensuring strong cybersecurity practices.

- TECHNICAL SKILLS
- Web Development: Laravel (PHP), Python, JavaScript (Vue.js), HTML, CSS (Bootstrap, Tailwind)
  - Design: Figma, Canva, IbisPaint, UI/UX Prototyping & Wireframing
  - Database & Tools: MySQL, GitHub, OpenAI (GPT), Web Design, Cross-platform Development
  - IT Support: Hardware & software troubleshooting, system installation, basic networking
  - Cybersecurity: Risk management, monitoring, and audit documentation
  - Languages: English, Filipino, Bisaya

- EDUCATION
- Brokenshire College, Davao City

- Bachelor of Science in Information Technology – Web Development (4th Year, 2022–Present)

A.L. Navarro National High School, Davao City

- Science, Technology, Engineering, and Mathematics (STEM) (2020–2022)
  - Electrical Installation & Maintenance (EIM) (2018–2020)

- WORK EXPERIENCE
- AgLend Finance – Australia (Remote, PH Branch)

2025

UI/UX and Frontend Developer (Project-based)

- Designed user-friendly web interfaces using Figma, Laravel, and Python.
  - Integrated AI-powered features using OpenAI (GPT) for smarter platform tools.
  - Enhanced platform security with active risk mitigation and monitoring.
  - Improved workflow automation with AI-driven internal initiatives.

- PROJECTS
- Advanced Grading System: Laravel-based, served as UI/UX Designer and Frontend Developer.
  - BC-CampusCompass: Clinical tracking platform with secure login, Map Leaflet integration, and notifications.
  - Room Reservation System: Web-based facility management system with database integration.
  - Citizen Support & Complaint Management System: Vanilla web development project (long-term scope).
  - ACADEX: Automated grading system prototype for Brokenshire College.
